TECHNICAL DATA SHEET

Mag Magic Acid Cleaner

Extremely powerful, fast-acting mag wheel cleaner designed for professional use. Mag Magic Acid Cleaner removes stubborn brake dust and contamination quickly.

Mag Magic is a water-based, acidic surface cleaner formulated to remove corrosion and oxidation from surfaces. It is also highly effective for cleaning aluminium, restoring unpainted aluminium surfaces back to their original mill finish appearance and preparing the surface for polishing with Omikron Metal Mirror Polish.

INSTRUCTIONS FOR USE

Mag Magic is designed for professional use. Users without appropriate experience or training should exercise caution and follow all instructions carefully.

1. Always spot test on a small, inconspicuous area before full application to confirm surface compatibility.
2. Spray product evenly onto the surface.
3. Pressure rinse off immediately after application.
4. Do not allow the product to dwell longer than necessary.

Dilution Rates

Dilute up to 1:3 as required for heavier contamination.

For lighter cleaning, dilute up to 1:6.

WARNINGS

- Professional use product – improper use may cause surface damage.
- Always perform a spot test before every use to ensure compatibility with the surface.
- DO NOT allow product to dry on the surface.
- DO NOT use in direct sunlight or on hot surfaces.
- NOT suitable for polished metals or delicate finishes.
- May dull paint or sensitive coatings.
- Avoid use on unknown or sensitive surfaces without testing.

TECHNICAL SPECIFICATIONS

Colour	Yellow
Fragrance	Acid
pH 100%	<3
